

PLACARD

Sharing knowledge & enhancing collaboration between the climate change adaptation (CCA) & disaster risk reduction (DRR) research, policy & practice communities

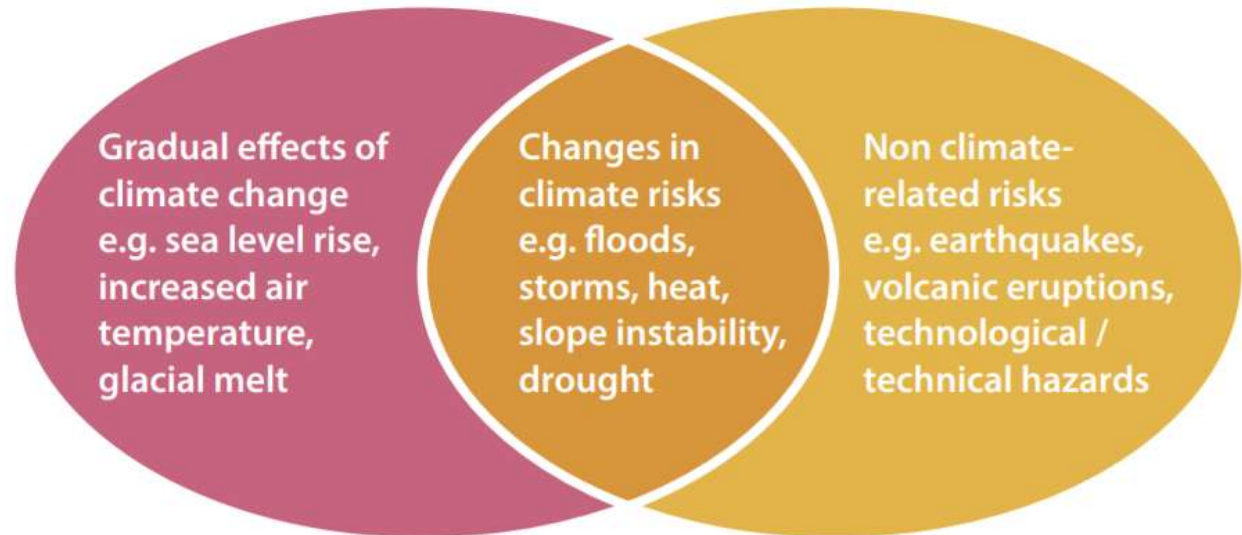

www.placard-network.eu

CLIMATE CHANGE
ADAPTATION (CCA)

COMMON
CHALLENGES

DISASTER RISK
REDUCTION (DRR)

- Enhance cooperation across international and regional institutions and organisations
- Increase research and policy coherence within and between CCA and DRR
- Facilitate the exchange of scientific knowledge and technological innovation between researchers, policymakers and practitioners;
- Increase synergies between different research and innovation initiatives

SOME OF OUR ACTIVITIES

- Creating a common space for dialogue and cooperation between DRR and CCA
- Connecting policy frameworks
- Developing shared narratives
- Common language, aligning DRR and CCA terminology
- Standardize / harmonize data for M&E
- European Climate Change Adaptation conference (ECCA 2019)

FOOD FOR DISCUSSION

More cohesion and cooperation between the networks of Disaster Risk Reduction and Climate Change Adaptation will lead to better decision making and ultimately to more resilient societies...
