

## 11<sup>th</sup> Meeting of the Community Of Users On Secure, Safe And Resilient Societies

### Theme 12 : Urban Critical Infrastructures, Panel 2 : Standardisation

- Why Standardisation?
- Who are the actors?
- Which are the deliverables?
- How Standardisation or CA (conformity assessment) and/or harmonisation could contribute to the Urban Critical Infrastructures and Disaster Resilience Security domains?
- How science and standardisation bodies are envisioned the European and International Security Standardisation till 2030?
- Is harmonisation the key to support the policymaking, MS and EU market on this direction?
- How research CIP and DRS deliverables could contribute to the Security Standardisation?
- In addition to practitioners' engaging, citizens awareness could be helpful on enhancing the European DRS via standardisation?
- Which areas on standardisation could support the efforts for a European certification scheme on CBRNe detection equipment?
- Could Public-Private partnerships (PPPs) in science, technology and innovation (STI) help make research and innovation policy more responsive to the changing nature of innovation and to social and global challenges?  
(PCP/PPI positive impact to standardisation / regulation / certification of CIP, DRS ?)
- A Way Forward?

# Thank you!
