SUPPORT UPTAKE

Pooling of research results

12 June 2018

Collection and dissemination of information

- Increased **pooling** and accessibility of research results
- Developed to ensure a thorough **transfer of research outputs** to end-users.
- Centralized access point to DRM related information

Project explorer

- Structured information regarding >500 past and on-going DRR and DRM related Projects
- Partners, funding, relationships and topics
- Pool of **experts**
- Information regarding **networks** behind projects
- Developed to facilitate new networks and collaborations
- Where the **Output** becomes a new **Input**
- Statistics available: **optimizing resources** and **facilitating prioritization of funding**

Where knowledge meets
